

ABORTION

**"Preach the word; be instant in season, out of season; reprove, rebuke, exhort with all longsuffering and doctrine"
-2Timothy 4:2**

This verse above gives us license to 'PREACH THE WORD' which consists of 66 books and countless topics as we are not just held to the gospel. We have been authorized to preach against sins like adultery, fornication, sodomy and abortion as per 1Cor.6:9-10 and Gal 5:19-21. The gospel is the remedy, only after the law is given to cure the problem. There are many preachers that do not preach against sin, political issues, current events or heresy save only the death, burial and resurrection, to which I say, DON'T LIMIT THE HOLY GHOST in you....Preach the Word. We that use open air to evangelize preach against fornication and seem to not mention abortion which is the very fruit of that sin. Statistics show 95% of women use abortion as a form of birth control, 1% are performed because of rape or incest; 1% because of fetal abnormalities; 3% due to the mother's health problems. Therefore murder (aka) abortion is something we should incorporate in our preaching when reproofing or rebuking sin on the streets and campus. Abortion results in the death of an innocent human being, mainly due to fornication. Here in the United States, over one and a half million pregnant women enter an abortion clinic every year, some for the third and fourth time. Behind these doors, over one and a half million preborn children lose their lives. This is an average of 4,000 deaths every day. With major cities in the U.S. now report more abortions than live births and as public criers we must preach against it.

Let us look at what an abortion is and the techniques used:

Abortion ends a pregnancy by destroying and removing the developing child. That baby's heart has already begun to beat by the time the mother misses her period and begins to wonder if she might be pregnant (about 31 days after the mother's last menstrual period or LMP). Surgical abortions are usually not performed before seven weeks, or 49 days LMP. By that time, the baby has identifiable arms and legs (day 45) and displays measurable brain waves (about 40 days). During the seventh through the tenth weeks, when the majority of abortions are performed, fingers and genitals appear and the child's face is recognizably human.

Abortion Techniques:

1) Suction Aspiration

Suction aspiration, or "vacuum curettage," is the abortion technique used in most first trimester abortions. A powerful suction tube with a sharp cutting edge is inserted into the womb through the dilated cervix. The suction dismembers the body of the developing baby and tears the placenta from the wall of the uterus, sucking blood, amniotic fluid, placental tissue, and fetal parts into a collection bottle.

2) Dilatation (Dilation) and Curettage (D&C)

In this technique, the cervix is dilated or stretched to permit the insertion of a loop shaped steel knife. The body of the baby is cut into pieces and removed and the placenta is scraped off the uterine wall. Blood loss from D & C, or "mechanical" curettage is greater than for suction aspiration, as is the likelihood of uterine perforation and infection.

3) RU 486

While many people focus solely on RU 486, the so-called " French abortion pill," the RU 486 technique actually uses two powerful synthetic hormones with the generic names of mifepristone and misoprostol to chemically induce abortions in women five-to-nine weeks pregnant. The RU 486 procedure requires at least three trips to the abortion facility

4) Methotrexate

The procedure with methotrexate is similar to the one using RU 486, though administered by an intramuscular injection instead of a pill. Originally designed to attack fast growing cells such as cancers by neutralizing the B vitamin folic acid necessary for cell division, methotrexate apparently attacks the fast growing cells of the trophoblast as well, the tissue surrounding the embryo that eventually gives rise to the placenta. The trophoblast not only functions as the "life support system" for the developing child, drawing oxygen and nutrients from the mother's blood supply and disposing of carbon dioxide and waste products, but also produces the HCG (human chorionic gonadotropin) hormone which signals the corpus luteum to continue the production of progesterone necessary to prevent breakdown of the uterine lining and loss of the pregnancy. Methotrexate initiates the disintegration of that sustaining, protective, and nourishing environment. Deprived of the food, oxygen, and fluids he or she needs to survive, the baby dies.

5) Dilatation (Dilation) and Evacuation (D&E)

Used to abort unborn children as old as 24 weeks, this method is similar to the D&C. The difference is that forceps with sharp metal jaws are used to grasp parts of the developing baby, which are then twisted and torn away. This continues until the child's entire body is removed from the womb. Because the baby's skull has often hardened to bone by this time, the skull must sometimes be compressed or crushed to facilitate removal. If not carefully removed, sharp edges of the bones may cause cervical laceration. Bleeding from the procedure may be profuse.

6) Salt Poisoning

Otherwise known as "saline amniocentesis," "salting out," or a "hypertonic saline" abortion, this technique is used after 16 weeks of pregnancy, when enough fluid has accumulated in the amniotic fluid sac surrounding the baby. A needle is inserted through the mother's abdomen and 50-250 ml (as much as a cup) of amniotic fluid is withdrawn and replaced with a solution of concentrated salt. The baby breathes in, swallowing the salt, and is poisoned. The chemical solution also causes painful burning and deterioration of the baby's skin. Usually, after about an hour, the child dies. The mother goes into labor about 33 to 35 hours after instillation and delivers a dead, burned, and shriveled baby. About 97% of mothers deliver their dead babies within 72 hours.

7) Urea

Because of the dangers associated with saline methods, other instillation methods such as hypersomolar urea are sometimes employed, though these are less effective and usually must be supplemented by oxytocin or a prostaglandin in order to achieve the desired result. Incomplete or failed abortion remains a problem with urea methods, often precipitating the additional risk of surgery.

8) Prostaglandins

Prostaglandins are naturally produced chemical compounds which normally assist in the birthing process. The injection of concentrations of artificial prostaglandins prematurely into the amniotic sac induces violent labor and the birth of a child usually too young to survive. Often salt or another toxin is first injected to ensure that the baby will be delivered dead, since some babies have survived the trauma of a prostaglandin birth and been born alive. This method is used during the second trimester.

9) Partial-Birth Abortion

This procedure is used to abort women who are 20 to 32 weeks pregnant -- or even later into pregnancy. Guided by ultrasound, the abortionist reaches into the uterus, grabs the unborn baby's leg with forceps, and pulls the baby into the birth canal, except for the head, which is deliberately kept just inside the womb. (At this point in a partial-birth abortion, the baby is alive.) Then the abortionist jams scissors into the back of the baby's skull and spreads the tips of the scissors apart to enlarge the wound. After removing the scissors, a suction catheter is inserted into the skull and the baby's brains are sucked out. The collapsed head is then removed from the uterus.

10) Hysterotomy

Similar to the Caesarean Section, this method is generally used if chemical methods such as salt poisoning or prostaglandins fail. Incisions are made in the abdomen and uterus and the baby, placenta, and amniotic sac are removed. Babies are sometimes born alive during this procedure, raising questions as to how and when these infants are killed and by whom.

**"Defend the poor and fatherless: do justice to the afflicted and needy"
Psalm 82:3**

10-13 WEEKS

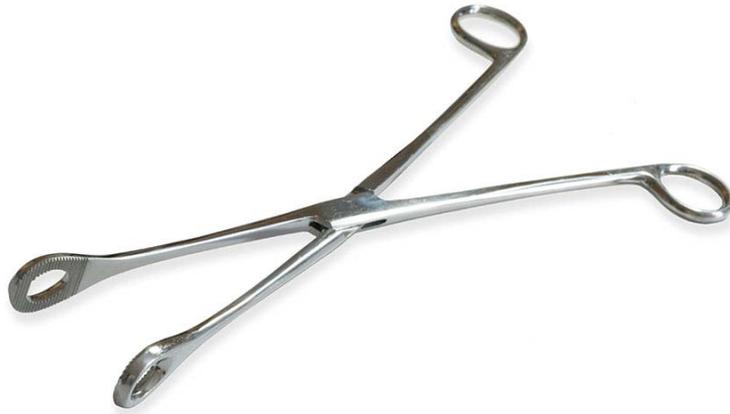

Now if you need a visual, a picture is worth a 1000 words, as here are a few tools used in abortion:

MANUAL VACCUM ASPIRATION:

The MVA is used to abort a child from 6 weeks to 12 weeks. This handheld syringe works by creating its own vacuum/suction, this means the child is ripped apart slowly. MVAs are used and reused millions of times a year around the world

FORCEPS

This tool is used to crush, grasp and pull the body apart

EMBRYOTOMY SCISSORS:

This instrument is used to cut off the head, arms and legs

SYRINGE WITH SPINAL NEEDLE:

This instrument's uses include injecting saltwater into the uterus. The baby swallows and breathes the poison, which causes congestion, hemorrhage, shock and death. The mother goes into a premature labor about a day later and delivers a dead child. Other use is to inject chemicals (digoxin, potassium chloride, etc.) into the heart of the baby. In both cases these harsh chemicals soften the child's corpse, making it easier to rip apart and remove.

TIRE-TETE:

This abortion device works by pushing the spike into the child's head, once inside the button is pushed. When it flattens, you can pull the child out.

PERFORATOR:

This death tool has a long spike that comes out and goes deep into the baby's cranium.

SPEAR PERFORATOR:

This tool is used to stab into the child's head

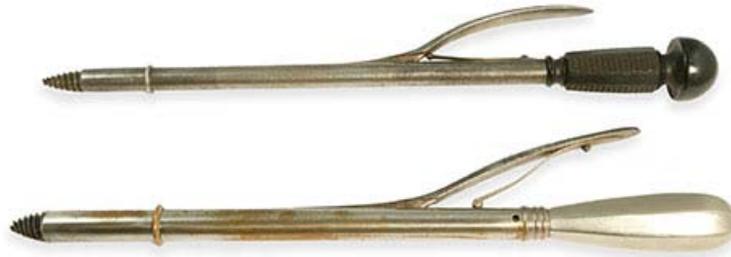

TIRE-TETE:

These instruments were used to grasp the inside and the outside of the baby's head by stabbing one end of the tool into the cranium. The teeth would grab into the skull allowing for extraction.

DR. BEDFORD'S DOUBLE CROCHETS:

This tool was designed to hook into the baby without ripping into the uterus

A.R. SIMPSON'S BASILYSTS:

This is to be screwed into the baby's head, once inside the handle was pushed down allowing a sharp knife to come out and cut the skull into pieces.

DAVIS' GUARDED CROCHET:

This tool is used for obtaining a firm grasp of the child's head, then the heavy crochet has 3 sharp teeth and was applied to the outside and inside of the cranium

AUVARD' BASIOTRIBE:
For gripping, crushing and pulling

PULLHEAD:
This tool of death was used to capture the baby's head once it was cut off

DECAPITATOR:

This was used to stab into the baby, the handles would be squeezed into the child and then the head was ripped out

TRACHELORHECTOR DESTRUCTIVE HOOK:

The folded hooks are positioned around the back of the neck and the handles turn apart 189 degrees causing the cervical spine to fracture.

LUER CRANIAL PERFORATOR:

This utensil is used to drill a hole in the baby's head to collapse the skull for extraction.

JACQUEMIER'S DECAPITATOR:

This death tool was used to decapitate the child.

SMELLIE'S DOUBLE CROCHET:
This tool was to grab and rip the baby right out

EMBRYOTOME:
This tool was made for one reason, to cut off a baby's head, legs and arms.

CRANIOCLAST:

Made to crush a small skull so as to allow the extraction.

VAN HUEVEL'S DESTRUCTIVE FORCEPS WITH CHAINSAW:

For dividing the crown of the baby, from crown to base.

Now remember when you look that these instruments of death, you must understand someone with a demonic mind gave this some thought and made this wicked device for one reason AND ONE REASON ONLY.....to MURDER unborn children.

**"And God saw that the wickedness of man was great in the earth, and that every imagination of the thoughts of his heart was only evil continually"
Genesis 6:5**

If the shed blood of Abel cried out to God from the ground and provoked God to judge Cain, what must the blood of fifty million innocent babies sound like in the ears of a holy God?

*Now IF a picture is worth 1000 words, a video can be worth 100,000 words.

HANDS & FEET 11 WEEKS

The modern day Holocaust

History has exposed the evils of the Nazi SS as to who would be chosen to live and who would die. Little children, the infirm, the old, the weak and certain races were inevitably sent to the gas. Within hours, their remains were burned in ovens or thrown into mass graves. Who will argue this?

Today Doctors (sic) and mothers choose who will live and who will die, and within hours, their little remains will be burned in ovens, ground up, or thrown into a dumpster like trash. Who can argue against this?

Although only twenty doctors were brought to trial at Nuremberg for experimenting on human guinea pigs, the holocaust allowed a limitless supply of human victims. Hundreds, if not thousands, of German doctors actively experimented on Jews and other prisoners in Nazi Germany. Methods of sterilization were experimented with from injections that caused infections of the ovaries, to x-ray burning of reproductive organs. Pre-cancerous growths of cervixes were induced and studied.

In addition, the tissue and organs of victims were frequently harvested for further experimentation. The same, of course, is going on in America today. Abortion clinics supply the medical establishment a virtually endless supply of human tissue that would otherwise be unavailable. Pharmaceutical companies and research hospitals all pay top dollar for organs, limbs and tissue from aborted fetuses.

Ruben Israel witnessing on the sidewalk of Denver with a plastic life size 12 week baby

Our beloved government:

"Look, I've got two daughters, 9 years old and 6 years old...if they make a mistake, I don't want them punished with a baby"

Obama (March 2006)

OBAMANATION

ABONMINATION

"Take away the wicked from before the king, and his throne shall be established in righteousness"
Proverbs 25:5

Does the Bible recognize a blob of tissue and jelly or human life:

"If men strive, and hurt a woman with child, so that her fruit depart from her, and yet no mischief follow: he shall be surely punished"

Exodus 21:22

(NOTE: the word "child" not blob)

"Thou shalt not kill"

Exodus 20:13

(Note: was alive and now dead)

"Cursed be he that takes reward to slay an innocent person"

Deuteronomy 27:25

(Note: what crime has an unborn child done?)

"Did not he that made me in the womb make him? and did not one fashion us in the womb?"

Job 31:15

(Note: God formed Job in the womb)

"But thou art he that took me out of the womb: thou didst make me hope when I was upon my mother's breasts. I was cast upon thee from the womb: thou art my God from my mother's belly"

Psalm 22:9-10

(Note: You are my God from my mother's belly?)

"For thou hast possessed my reins: thou hast covered me in my mother's womb. I will praise thee; for I am fearfully and wonderfully made: marvellous are thy works; and that my soul knoweth right well. My substance was not hid from thee, when I was made in secret, and curiously wrought in the lowest parts of the earth. Thine eyes did see my substance, yet being unperfect; and in thy book all my members were written, which in continuance were fashioned, when as yet there was none of them.

Psalm 139:13-16

(Note: in my mother's womb, you formed my inward parts, for I am fearfully and wonderfully made and my soul knows it very well)

"These six things doth the LORD hate: yea, seven are an abomination unto him: A proud look, a lying tongue, and hands that shed innocent blood..."

Proverbs 6:16-19

(Note: God HATES)

"Thus saith the LORD that made thee, and formed thee from the womb, which will help thee; Fear not, O Jacob, my servant; and thou, Jesurun, whom I have chosen"

Isaiah 44:2

(Note: We were formed by God from the womb?)

"And now, saith the LORD that formed me from the womb to be his servant, to bring Jacob again to him, Though Israel be not gathered, yet shall I be glorious in the eyes of the LORD, and my God shall be my strength"

Isaiah 49:5

(Note: Isaiah was no dribble but was formed from the womb)

"Before I formed thee in the belly I knew thee; and before thou camest forth out of the womb I sanctified thee, and I ordained thee a prophet unto the nations"

Jeremiah. 1:5

(Note: Jeremiah was nor a splotch globule but was formed of God)

"For he shall be great in the sight of the Lord, and shall drink neither wine nor strong drink; and he shall be filled with the Holy Ghost, even from his mother's womb"

Luke 1:15

(Note: John the Baptist was FILLED WITH THE HOLY GHOST while inside his mother)

Over and over again, God's Word calls human beings in the womb "children" and the God of the Bible mandates the same civil penalty for those who would kill the pre-born as for those who would kill the born (Exodus 21:22-24).

"IT'S MY BODY, DON'T TELL ME WHAT TO DO WITH MY BODY"

Oh how many times do we hear that regarding abortion? Answer: Women are told what to do with their bodies ALL the time. Prostitution is illegal, do not sell your body. If you are pregnant, no alcohol or smoking allowed. You can not commit suicide. You can not take illegal drugs. A doctor may tell them 'Do not eat certain foods.' If you are in the military, you belong to the government and your body is not your own. The examples are countless.

TOE- 14 WEEKS

"If thou forbear to deliver them that are drawn unto death, and those that are ready to be slain; If thou sayest, Behold, we knew it not; doth not he that pondereth the heart consider it? and he that keepeth thy soul, doth not he know it? and shall not he render to every man according to his works?"

Proverbs 24:11-12

In the BLUE FLAME of hellfire:

This is Margaret Sanger (Sept. 14, 1879 – Sept. 6, 1966) founder of the 'American Birth Control League' which later became 'Planned Parenthood'

Margaret Sanger, the alcoholic, Demerol addict and known atheist, who under the umbrella of family planning aka Planned Parenthood, was a proponent of forced eugenics, segregation, abortion, birth control and sexual immorality. Here are some of her quotes.

"The most merciful thing that a family does to one of its infant members is to kill it."

"We should hire three or four colored ministers, preferably with social-service backgrounds, and with engaging personalities. The most successful educational approach to the Negro is through a religious appeal. We don't want the word to go out that we want to exterminate the Negro population"

"Birth control itself, often denounced as a violation of natural law, is nothing more or less than the facilitation of the process of weeding out the unfit, of preventing the birth of defectives or of those who will become defectives."

"Our failure to segregate morons who are increasing and multiplying... a dead weight of human waste... an ever-increasing, unceasingly spawning class of human beings who never should have been born at all."

"Our objective is unlimited sexual gratification without the burden of unwanted children"

Which group suggested mandatory sterilization of the unemployed?

- a) Hitler's National Socialist Party
- b) Stalin's Bolshevik Party
- c) Mao-tze Tung's Communist Party
- d) Margaret Sanger's American Birth Control League

Answer: **d)**

Margaret Sanger's American Birth Control League (which later became Planned Parenthood). This group advocated sterilization for all "dependents such as the unemployed, the deaf the deformed and the blind; the delinquents such as the wayward and the criminals; the mentally deficient such as the morons and the idiots..."

Planned Parenthood is the largest abortion provider in the United States, with 820 clinic locations in the U.S. In 2007-2008 planned parenthood was responsible for some 305,310 abortions (just that year alone) and billing the government 350 million dollars. According to Planned Parenthood's own figures, only 5 percent of the total services provided to women in 2007 while abortions accounted for 95 percent of the services that year. The largest planned parenthood is in Houston, Texas, the structure is 78,000-square-foot and costed \$26 million dollars. There is a 'Margaret Sanger Award' that gives annually to honor, in their words, "individuals of distinction in recognition of excellence and leadership in furthering reproductive health and reproductive rights" (sic.) Among those that received this *hellbound award* were Lyndon Johnson, Martin Luther King, John D. Rockefeller III, Katharine Hepburn, Jane Fonda, Hillary Rodham Clinton and Ted Turner.....need I say more?

**"For the love of money is the root of all evil"
2Timothy 6:10**

Can we stop abortion?

With God anything is possible, but I have seen Catholics at these abortion clinics praying to Mary by way of the rosary and Bible believing Christians say nothing. This will be a hindrance, can God really bless something if someone is praying to another god? Murder

is bad, however idolatry is even worse. If context means anything the first two of the Ten Commandments deal with worshiping false gods/graven images whereas murder is ranked at number 6. Should we compromise God's standard? Would we allow a Krishna to chant to his god if he was pro-life or would we allow a tree hugger to bow and pray to a tree as long as he is anti abortion?

I say NO.

We are told to pray to "our Father" not Mary, not a dead saint, not a tree or an idol. How about the Bible as an example, prayer to the Father, in the Name of Jesus, empowered by the Holy Ghost.

God will not bless our work IF we compromise, this is why I believe abortion has continued since 1973. These Catholics are sincere and labor on the sidewalk, how be it in vain. How can those that cry out for the unborn not cry out against breaking the first two of the 10 Commandments? Would we allow statues of Mary, candles and kneeling pads in our Churches? If someone stops from getting an abortion, do we allow that infant to then be baptized with drops of water on the forehead?

Many pro-life ministries wink at this, but God does not.

Once I preached against this at a pro-life march in Northern California and was rebuked by fellow Christians as they told me "this is not the time for this and we must stand together." I was told "we are embarrassed of you" and "you are sowing discord."

Many non Catholics were immune to the prayers offered to Mary, the large pictures and banners of Mary and priests blessing the venue with shout of 'hail Mary'.

Can we really blame the democrats or republicans and liberal courts for abortion?

This photo above was taken from a local newspaper in Norway as we were preaching against Obama getting the 'Nobel Prize' in Norway, we were banned from Oslo and later arrested.

I do not recommend that the sin of abortion be the only topic you preach against as there are those that see abortion in every verse and the downfall of America or why the Church is dead. There are groups and individuals that make one subject their gospel, like homosexuals, abortion, politics or last days and such. Everything is center around that one topic. Don't get stuck on one gear and go spiritual bipolar, because this is one sin that can tug your emotions and there are people in prison for bombing abortion clinics or trying to murder abortion doctors that did so out of pure emotion, not inspiration.

It is NOT our duty to kill sinners for Jesus, nor do we find anyone killing another in the New Testament for the Gospels sake and we find no where in the Epistles where killing is indorsed. Those people in jail for shooting abortion doctors became what they preached against, A MURDERER. There are not martyrs, they are nor persecuted for the sake of the Gospel, they are not true patriots nor Christians, but A MURDERER and worthy of execution.

**"But let none of you suffer as a murderer"
1Peter 4:15**

When these abortion doctors are shot, not one abortion is stopped, only rescheduled. Norma McCorvey aka Jane Roe of Roe v. Wade who's case won the right for women to murder their babies, is now saved. What if one of these zealots would have killed her? She would have been sent to hell prematurely. Our function is to preach and warn, not murder.

"I am dedicated to spending the rest of my life undoing the law that bears my name... I would like nothing more than to have this law overturned, either by an act of Congress or a reversal in the Supreme Court..."

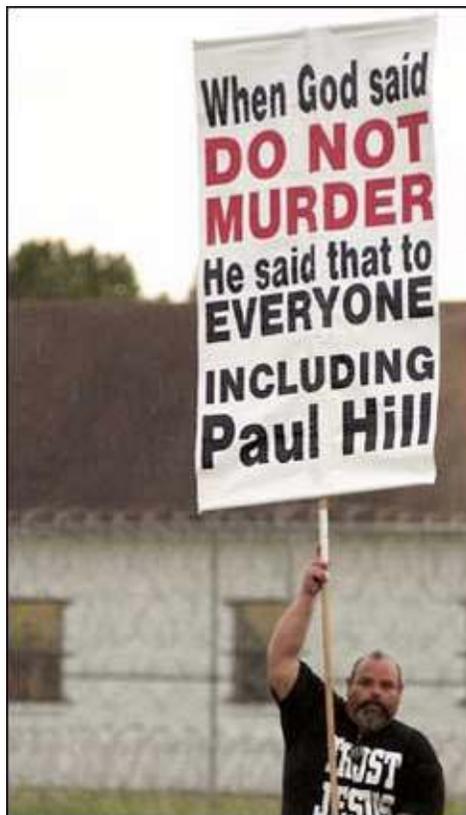

Norma McCorvey (aka Jane Roe of Roe v. Wade)

A number of years ago I preached at the execution of Paul Hill, who murdered a doctor, his driver and shot the doctors wife in the head (she survived.) This was done in Florida, a state that's known for executing inmates, unlike California which will have an inmate die of old age before they are executed. Some inside the pro-life camp considered Paul Hill a prophet/apostle and an example of what Christians should do. I knew the media was going to be there and I did not want God's name tainted by Hill's actions, so I was there to balance the story. That Paul Hill became what he preached against, he is a murdered and should be executed. Many of Hill's

followers were out there and they were preached at for considering such to be Christianity. Paul Hill did not repent, was not remorseful and is in hellfire as a murderer. He murdered the abortion doctor, he murdered his guard and he tried to murder the wife, Hill was not a martyr but a criminal and worthy of death.

Our job is to reprove and warn the wicked, rebuke those parading in their sin and proclaim the gospel to every creature, not shot them and bomb clinics.

In the Old Testament we find many male babies murdered by Pharaoh when Moses was born, yet not one tried to kill Pharaoh or bomb the castle. In the New Testament we find male infants murdered by Herod when Jesus was born, yet we do not read where John the Baptist tried to assassinate king Herod.

This photo was taken from a local newspaper in Florida preaching in favor of Paul Hill's execution

Why would these guys shoot just the doctors? Why not the nurses and the receptionist? Why not the police that protect that building? Why not the women that get the abortions? Why not the judges that uphold the law to allow them? Why not the politicians that make it law? Why not those businesses that make the abortion tools? Why not the voters that allowed these liberal laws? Why not the tax payer that supports them? IF these guys are true to their belief, a lot of people must die.....and they are pro-life?

To murder another while using the Name of God to justify it is NOTHING MORE THAN TAKING GOD'S NAME IN VAIN. This is breaking the 3rd Commandment.

"Thou shalt not take the name of the LORD thy God in vain; for the LORD will not hold him guiltless that taketh his name in vain"

If someone stole your credit cards and maxed it out, only to have the bill be sent to your address, you would be angry? You would want justice, as the verse reads, God will not allow that person to go unpunished.

".....Hearken not unto the words of the prophets that prophesy unto you: they make you vain: they speak a vision of their own heart, *and* not out of the mouth of the LORD....I have not sent these prophets, yet they ran: I have not spoken to them, yet they prophesied.....Behold, I *am* against the prophets, saith the LORD, that use their tongues, and say, He saith. Behold, I *am* against them that prophesy false dreams, saith the LORD, and do tell them, and cause my people to err by their lies....."

Jeremiah chapter 23

FOOT-11 WEEKS

"Will ye pollute Me among My people for handfuls of barley and for pieces of bread, to slay the souls that should not die, and to save souls alive that should not live...?"

Ezekiel 13:19

If God could hear the voice of Abel's blood crying out to Him from the ground (Genesis 4:10), **do you suppose God has missed the cries of those 50,000,000 infants who've been butchered in America since 1973?**
